AK

SUMMARY

I am a dedicated Electrical and Electronics Engineering student with a strong foundation in programming languages and web technologies. My projects include cutting-edge applications such as an Electric Vehicle Battery Management System and a full-stack Hospital Management System. I thrive on challenges and have excellent leadership and teamwork skills, making me a valuable asset in any tech-driven environment

EXPERIENCE

Intern

Deccan Pumps Private Limited

09/2023 - 01/1970 Tamil Nadu

A company specializing in manufacturing pumps

Completed an internship at Deccan Pumps Private Limited

EDUCATION

Bachelor of Engineering

Karpagam College of Engineering

08/2022 - 05/2026 Coimbatore, Tamil Nadu

Higher Secondary Certificate

Sakthi Vigneshwara Kalvi Nilayam Higher Secondary School

06/2020 - 05/2022 Tamil Nadu

Secondary School Leaving Certificate

Bishop Ubagaraswamy Higher Secondary School

06/2018 - 05/2020 Tamil Nadu

CERTIFICATION

NPTEL - Introduction to Industry 4.0 and Industrial Internet of Things

Scored 63% with Elite

Java Programming Course

Completed Java Programming Course provided by Great Learning

7th National Conference on Clean and Green Energy

Presented a paper on E-Vehicle BMS

Industrial Automation Applications

Sensing Communication and Control System for Industrial Automation Applications By IIT Palakkad

C Language Course - Udemy

Completed C Language Course

STRENGTHS

Leadership and Time Management

Effective in leading teams and managing time efficiently

Team Membership

Strong team member with the ability to collaborate effectively

KEY ACHIEVEMENTS

Electric Vehicle Battery Management System

Developed an advanced Electric Vehicle Battery Management System that utilizes IoT, GPS, and database technologies to track vehicle location and manage battery performance

Hospital Management System

Created a fully functional Hospital Management System that integrates backend with Spring Boot and frontend with HTML/CSS, enhancing hospital administration operations

AI-Powered Study Material Generator

Developed an AI-Powered Chrome extension for generating study materials which efficiently extracts key concepts and offers PDF export functionality

SKILLS

Arduino	C/C++	Chrome	CS S
GitHub	Gp s	HTML	IntelliJ
Io T	Java	Java Spring	
JavaScript		Microsoft SQL Server	
Python	SpringBoot	SQ L	
Visual Studio		Visual Studio Code
