SUMMARY

Aspiring engineer passionate about building efficient and user-centric digital solutions. Adaptable, fast learner, and enthusiastic about collaborative problem-solving and exploring modern technologies.

PROJECTS

Employee Management System, [Link](#) Jan 2025 — Present

- Built a MERN-based employee management system to streamline task assignment and record-keeping.
- Developed user, manager, and admin portals using ReactJS.
- Utilized Express.js and Node.js for backend APIs; MongoDB for database management.
- Implemented role-based access control for efficient task delegation and user management.

Estock Storefront, [Link](#) Dec 2024 — Feb 2025

- Developed a stock management system using JSP for the frontend, Servlets for backend logic, and MySQL for database management
- Designed dynamic web pages, implemented efficient request handling with Servlets, and optimized database operations for seamless stock tracking.
- Ensured scalability, security, and responsiveness for enhanced user experience.

CERTIFICATIONS

Java Servlet Basics and JSP 101, Simplilearn Nov 2024

Advanced Software Engineering Job Simulation, Walmart Oct 2024

Nptel course on Python for Data Science, NPTEL Aug 2024

Nptel Course on Privacy and Security in social media, Nptel Apr 2024

React Basics, CourseEra Mar 2025

JavaScript, Hackerrank Jan 2025

EDUCATION

Karpagam College of Engineering, Coimbatore, India - BE , Computer Science and Technology Nov 2022 — Present
- (GPA: 8.41)

SKV Matriculation Higher Secondary School, Namakkal, India - SSLC, Computer Science - Jun 2020 — Apr 2022
(GPA: 84%)

SKV Matriculation Higher Secondary School, Namakkal, India - HSC, General - (GPA: Jun 2019 — May 2020
75%)

AWARDS

BEST PAPER AWARD, Vivekananda Institute of Management Studies , Coimbatore Oct 2024

Received the "Best Paper Award" for presenting a research paper titled "Advanced Image-Based Plant Disease Diagnosis: A Precision Approach Using Deep Learning Techniques" at the 3rd International Conference on October 4, 2024, hosted by Vivekananda Institute of Management Studies, Coimbatore.

Paricipated Worshop Titled IPV6 Deployment, NITK , SURATKAL Mar 2024

Participated in a workshop organized by the Department of Computer Science & Engineering, NIT Karnataka, under the IIESoC initiative. Gained hands-on experience and theoretical knowledge on contemporary deployment methodologies.

SKILLS

Programming Languages : C, Java

Web Technologies : JSP, Servlet, MERN Stack, Java, .NET

Tools : Mysql

Platform : Eclipse, Visual Studio Code, Dev C++
